THE few following Rules relating to the Methods of matching and fighting of Cocks in *London*, said to have been in Practice there, ever since the Reign of King *Charles II.*

Which Methods in Fighting of a Main are,

To begin the same by fighting the lightest Pair of Cocks, (which fall in Match) first, proceeding upwards, to the End; that every lighter Pair may fight earlier than those which are heavier.

In matching (with Relation to the Battles) it is a Rule always in *London*.

That after the Cocks for the Main are weighed, and the Match-Bills are compared.

That every Pair of Dead, or equal Weight, are separated, and fight against others, provided that it appears that the Main can be enlarged, by adding thereto, either one Battle or more thereby.
